TokNav NET660i CORS GNSS receiver

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TokNav NET660i CORS GNSS receiver

Manufacturer: TOKNAV
Model: GEN-TOK-1293974
Availability: In Stock

Description

The TokNav NET660i is a compact, rugged CORS-station GNSS receiver built for continuous base-station and reference-network duty. It tracks all major satellite constellations (GPS, GLONASS, BeiDou, Galileo, QZSS, SBAS) across roughly 1,400 channels, runs an onboard Linux system, and offers Ethernet, WiFi, Bluetooth, serial and cellular connectivity with 32GB onboard storage, designed for outdoor, always-on network RTK infrastructure.
