Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TokNav T10Pro Gnss Receiver Incl. Internal Uhf-gsm Modem

Manufacturer: TOKNAV
Model: GEN-TOK-4390769
Availability: In Stock

Description

The TokNav T10Pro is an engineering-grade GNSS RTK receiver built for professional field surveying, using a 1408-channel board for high-precision positioning (around 8mm horizontal / 15mm vertical RTK accuracy). It has a rugged IP68-rated body with over 16 hours of battery life, and includes a built-in UHF radio plus an internal 4G/GSM modem, letting it work as either a base or rover without external radios. Suited for topographic survey, construction layout, and control-point work.
