Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TokNav T50 Gnss Receiver Incl. Internal Uhf-gsm Modem

Manufacturer: TOKNAV
Model: GEN-TOK-2795892
Availability: In Stock

Description

The TokNav T50 is a compact, palm-sized RTK GNSS receiver built around a full-constellation tracking engine. Its standout feature is a built-in green laser module paired with a laser-assist camera, letting surveyors capture remote or overhead points without a prism or extra crew - the feature that sets it apart from the camera-focused T50Pro and the entry-level T50Basic. It also includes an internal UHF radio plus 4G/Wi-Fi/Bluetooth, tilt compensation, and long battery life.
