TokNav TA320 External GNSS antenna

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

TokNav TA320 External GNSS antenna

Manufacturer: TOKNAV
Model: GEN-TOK-5484191
Availability: In Stock

Description

The TokNav TSA320 is a compact external survey-grade GNSS antenna, receiving all major satellite constellations with very low phase-center variation for high positioning accuracy. It is small and lightweight with an SMA connector, rated IP67 for outdoor use, and is intended for base-station setups, survey monitoring, and vehicle/UAV/marine positioning applications.
