CDAD DAL32-BT Digital Level

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

CDAD DAL32-BT Digital Level

Manufacturer: MUYA

Model: GEN-MUY-8477378

Availability: In Stock

Description

The DAL32-BT is a 32x magnification digital auto level built for construction, topographic, and agricultural surveying, effective over a 2-100m range with an IP55 weatherproof housing. This Bluetooth-enabled variant adds wireless data transfer, letting the level send readings straight to a paired device instead of requiring a cable, and it can store up to roughly 1,000 measurement records on a long-life rechargeable battery.
