Description

M24-S with its new eye-catching design, are extremely practical and compact transceivers operating on the PMR446 frequency band; they are the ideal solution for people who need to stay in touch with others in professional situations or during their leisure activities. They incorporate all the functions that you would expect to have on a reliable device. M24-S is equipped with an LCD backlit display, VOX function for hand-free communications, 38 CTCSS tones, Scan and Auto Power Save function which reduces battery consumption by up to 50%. All the features on these outstanding radios are easily accessible thanks to the centrally mounted controls. The new packaging has been designed to be as small a...
