Topcon Bt-32q Battery Cells Only

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Topcon Bt-32q Battery Cells Only

Manufacturer: TOPCON

Model: SUR-TOP-03243

Availability: In Stock

BT-32Q

Description

The BT-32Q is a rechargeable 7.2V NiMH battery pack (about 1400mAh) that powers older Topcon total stations such as the GTS-200/210/220/230 and GPT-1000/2000/3000 series. It slides into the instrument's battery bay to provide field power for angle/distance measurement and onboard electronics.
