

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5408 Resistance Decade Box

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-02958

Availability: In Stock

Description

This resistance decade box can be used to design and test circuits. The R5408 features slide switches that allow a user to easily add or subtract to quickly reach the desired resistance range. Once tested, a resistor indicated by the decade box can then be put into the circuit.

Features

- 1% Resistance substitution from 1 to 11,111,110Ω
- Excellent for circuit development
- 3 binding posts permit isolated substitutions
- 7 decade ranges of resistance
- Durable construction

Ideal Applications for the REED R5408
