Reed R2020 IR Thermometer, Video Data Logger W/ Sd Card

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2020 IR Thermometer, Video Data Logger W/ Sd Card

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-00802

Availability: In Stock

Description

This Video Infrared Thermometer combines the accuracy and convenience of a traditional infrared thermometer with the visual advantage of a digital camera. The R2020 is capable of measuring high temperatures up to 3992°F (2200°C) and includes a number of features including ambient temperature, humidity, dew point and wet bulb temperature measurements. This instrument can also be mounted to a tripod and setup to continuously monitor an application while graphing live results on-screen. Features Dual lasers assist with target area identification 50:1 distance to spot size ratio. Take photos and record video with built-in camera. Datalogging capabilities include on-screen graphing with time an...
