Reed SD-3007 Thermo-Hygrometer W/ Type K Thermocouple, Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed SD-3007 Thermo-Hygrometer W/ Type K Thermocouple, Data Logger

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-00864

Availability: In Stock

Description

This SD series datalogging thermo-hygrometer measures ambient temperature, relative humidity, dew point, and wet bulb temperatures as well as temperature with an integrated Type J/Type K thermocouple thermometer. The SD-3007 features automatic temperature compensation, Data hold, Max/Min functions, and an easy-to-read backlit LCD display. Using an SD card (max 16Gb), a user can select a desired sampling rate and quickly generate an Excel file without the use of software. Optional accessories include a tripod and AC adapter for continuous long-term monitoring. Optional PC software also allows a user to track live measurements. Features Measures relative humidity, ambient temperature and dew...
