Reed SD-9901 Air Quality Meter, Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed SD-9901 Air Quality Meter, Data Logger

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-00918

Availability: In Stock

Description

This indoor air quality (IAQ) datalogger measures Oxygen, Carbon Dioxide, Carbon Monoxide, Temperature and Humidity. The SD-9901 is capable of recording readings from 3 probes simultaneously and displays measurements on a large backlit LCD. Using a SD card (max 16Gb), a user can select a desired sampling rate and quickly generate an Excel file on a SD card without the use of software. Optional accessories include a tripod and AC adapter for continuous long-term monitoring. Optional PC software also allows a user to track live measurements. Features Measures oxygen (O2), carbon dioxide (CO2), carbon monoxide(CO), temperature and humidity Records up to 3 readings simultaneously User adjust...
