Reed R5700 Ground Resistance Tester, Clamp-On

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5700 Ground Resistance Tester, Clamp-On

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-01003

Availability: In Stock

Description

This auto ranging earth resistance clamp meter measures ground resistance and leakage current. The R5700 has internal memory capable of storing up to 99 measurements, allow for a user to set alarm thresholds and features a double molded conductor clamp for added protection. Features Auto-ranging ground resistance and leakage current measurements 0.001Ω resolution for low resistance measurements 9999-count backlit LCD display Internal memory stores up to 99 readings User adjustable alarms Data hold function Durable double molded conductor clamp 1.26" (32mm) jaw size for large ground rods Low battery indicator and auto shut off Cat. III 300V safety rating Ideal Applications for t...
