# Reed SD-8205 Vibration Meter, Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

## Product Overview

### Reed SD-8205 Vibration Meter, Data Logger

**Manufacturer:** ERP Manufacturer #8

**Model:** MEA-REE-01059

**Availability:** In Stock

## Description

This SD series datalogging vibration meter measures velocity and acceleration to determine vibration levels in machinery. The SD-8205 meets ISO1954 standards and features RMS, Peak hold, and Max/Min functions. Using a SD card (max 16Gb), a user can select a desired sampling rate and quickly generate an Excel file on a SD card without the use of software. Optional accessories include a tripod and AC adapter for continuous long-term monitoring. Optional PC software also allows a user to track live measurements. Features Measures velocity and acceleration to determine vibration level User selectable unit of measure (metric or imperial) RMS, Peak hold, Data hold and Max/Min functions 10Hz t...
