Reed 8906 Anemometer/Thermometer, Rotating Vane W/ Air Volume

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed 8906 Anemometer/Thermometer, Rotating Vane W/ Air Volume

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-01069

Availability: In Stock

Description

This professional grade thermo-anemometer provides accurate air velocity, air volume and air temperature measurements. The 8906 is capable of taking continuous air velocity averaging measurements for up to 2 hours and features a low friction rotary vane for improved accuracy and the ability to simultaneously display air velocity and temperature on the dual LCD display. Features Measures fpm, m/s, kph, mph and knots Dual LCD display simultaneously displays air velocity and air temperature Calculates air volume (CFM) Basic accuracy of $\pm 2\%$ Min/Max/Avg and Data Hold Functions Low battery indicator and auto shut off Ideal Applications for the REED 8906 HVAC/R and Refrigeration Servicing...
