

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R1900 Anemometer/Thermometer, Rotating Vane, Compact

Manufacturer: ERP Manufacturer #8

Model: MEA-REE-01073

Availability: In Stock

Description

This compact air velocity meter (anemometer) measures in fpm, m/s, kph, mph and knots. The R1900 keeps track of maximum and average readings and features a data hold function and low friction rotating vane for improved accuracy.

Features

- Measures fpm, m/s, kph, mph, knots and temperature
- Designed for one-handed operation
- Backlit dual LCD display
- Beaufort scale
- Max, average and data hold functions
- Low battery indicator and auto shut off

Ideal Applications for the REED R1900

- HVAC/R and Refrigeration Servicing
- Detecting Filter Blockage
- Condensers and Chillers
- Environmental Monitoring
- Boating

What's included with the REED R1900

- Air Velocity Meter
- 3 x "AAA" Batteries
