Reed R2300 IR Thermometer, Compact, 12:1, -26/752F, -32/400C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2300 IR Thermometer, Compact, 12:1, -26/752F, -32/400C

Manufacturer: Reed Instruments

Model: MEA-REE-00809

Availability: In Stock

Description

The REED R2300 is a compact non-contact infrared thermometer with a 12:1 distance-to-spot ratio, letting users take temperature readings of hot, hazardous, or hard-to-reach surfaces from a safe distance. It measures from -32C to 400C with a built-in laser pointer for target aiming and a backlit display showing min/max readings. Emissivity is digitally adjustable, and the unit includes selectable C/F output plus high/low alarm alerts.
