Reed R2320 IR Thermometer, Professional, 30:1, -26/1472F, -32/800C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2320 IR Thermometer, Professional, 30:1, -26/1472F, -32/800C

Manufacturer: Reed Instruments

Model: MEA-REE-00813

Availability: In Stock

Description

The REED R2320 is a professional infrared thermometer with a 30:1 distance-to-spot ratio, measuring from -32C to 800C with a built-in laser pointer for target aiming. It offers digitally adjustable emissivity, tracks max/min/average/differential readings, and includes tri-color LED and audible alarms for out-of-range temperatures. The unit has a bright color display, trigger lock, and tripod mount, making it suited for continuous industrial monitoring.
