Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2330 IR Thermometer, Professional, 50:1, -26/2282F, -32/1250C

Manufacturer: Reed Instruments

Model: MEA-REE-00815

Availability: In Stock

Description

The REED R2330 is a professional infrared thermometer with a 50:1 distance-to-spot ratio, letting users take accurate readings of small targets from farther away. It measures from -32 to 1250C and includes dual laser targeting, a color display, and adjustable audible/visual alarms with tri-color LED indicators. It also logs max, min, average, and differential readings, with adjustable emissivity and a tripod mount for continuous monitoring.
