Reed R2400 Thermometer, Type K Thermocouple, -58/2000F, -50/1300C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2400 Thermometer, Type K Thermocouple, -58/2000F, -50/1300C

Manufacturer: Reed Instruments

Model: MEA-REE-00819

Availability: In Stock

Description

The REED R2400 is a single-input Type K thermocouple thermometer covering -50 to 1300C (-58 to 2000F), with a backlit LCD that can display readings in Celsius, Fahrenheit, or Kelvin. It offers max and data-hold functions, selectable 0.1 or 1 degree resolution, a tripod mount for continuous monitoring, and a low-battery indicator with auto shut-off. It ships with a Type K beaded wire probe.
