Reed R2930 Probe, Type K, Surface, 90 Degree Angle, -58/932f, -50/500c, Yellow

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2930 Probe, Type K, Surface, 90 Degree Angle, -58/932f, -50/500c, Yellow

Manufacturer: REED INSTRUMENTS

Model: MEA-REE-00833

Availability: In Stock

Description

This REED R2930 is a Type K right-angle surface thermocouple probe designed to measure temperatures on flat surfaces and inside hard-to-reach areas such as pipes, while keeping the user's hand away from the heated surface. It covers a range of -58 to 932F (-50 to 500C), has a fast response time of under 2 seconds, and comes with a roughly 20 cm probe, 12.7 cm handle, and 100 cm connecting wire for use with Type K instruments.
