Reed R2950 Probe, Type K, Immersion, -58/1112f, -50/600c, Yellow

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2950 Probe, Type K, Immersion, -58/1112f, -50/600c, Yellow

Manufacturer: REED INSTRUMENTS

Model: MEA-REE-00837

Availability: In Stock

Description

This Type K immersion thermocouple probe measures temperatures from -50C to 600C (-58F to 1112F) with a response time under 2 seconds. It has a roughly 6-inch probe with a 5-inch handle and a 39-inch lead wire, and connects to standard Type K instruments. It's built for checking water, oils, and other non-corrosive liquids in lab, food-service, and industrial settings.
