Reed R2222 Thermometer, Digital Stem, -40/450F, -40/230C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2222 Thermometer, Digital Stem, -40/450F, -40/230C

Manufacturer: Reed Instruments

Model: MEA-REE-00850

Availability: In Stock

Description

The Reed R2222 is a stainless steel digital stem thermometer measuring temperatures from -40 to 482F (-40 to 250C), with 0.1 degree resolution and roughly +/-1.5% accuracy. It has a backlit LCD display, switchable C/F readout, max/min tracking, and data hold, responding to readings in about two seconds. It runs on a single LR44 battery and auto-shuts-off after around 20 minutes of inactivity.
