Reed Sd-2010 Heat Stress Meter, Wbgt Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed Sd-2010 Heat Stress Meter, Wbgt Data Logger

Manufacturer: REED INSTRUMENTS

Model: MEA-REE-00868

Availability: In Stock

Description

The Reed SD-2010 is a handheld heat stress meter and data logger that calculates Wet Bulb Globe Temperature (WBGT) by combining air temperature, humidity, and radiant/direct sunlight readings. It logs readings to an SD card at a user-selectable sampling interval and includes a backlit dual LCD display with an adjustable audible alarm for heat-stress thresholds. It can run on AA batteries or an AC adapter and mounts on a tripod for continuous unattended monitoring.
