

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6010 Pinless Moisture Detector

Manufacturer: Reed Instruments

Model: MEA-REE-00870

Availability: In Stock

Description

The REED R6010 is a non-invasive, pinless moisture meter that measures moisture content in wood, tiles, and other building materials by simply passing the sensor over the surface, with no punctures. It reads 0-100% moisture at a detection depth of roughly 20-40mm and displays results on a backlit LCD, classifying readings as dry, at risk, or wet. It includes user-adjustable audible/visual alarms, min/max data hold, and an auto shut-off after 30 seconds, running on 3 AAA batteries.
