Reed R6018 Pin/Pinless Moisture Detector

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6018 Pin/Pinless Moisture Detector

Manufacturer: Reed Instruments

Model: MEA-REE-00877

Availability: In Stock

Description

The REED R6018 is a dual-mode moisture meter that checks wood and building materials using either a pin probe or a non-invasive pinless scan. Pin mode reads roughly 5-50% moisture in wood (about 8mm deep), while pinless mode reads 0-99.9% up to 25mm deep on wood or materials like drywall, plaster, and concrete. It shows low/medium/high moisture levels with a rising-pitch audible alert, runs on a 9V battery, and includes auto shut-off and a low-battery indicator.
