Reed C-383 Combustible Gas Detector

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed C-383 Combustible Gas Detector

Manufacturer: Reed Instruments

Model: MEA-REE-00899

Availability: In Stock

Description

The REED C-383 is a handheld combustible gas leak detector with a 15-inch flexible gooseneck probe for reaching tight spaces. It uses a heated semiconductor sensor to pick up gasoline, propane, natural gas, and fuel oil, with sensitivity down to about 5 ppm and response under one second. A tricolor LED bar plus an audible alert give visual and audio warning of a leak, and the unit runs on 4 AA batteries with roughly 40 hours of continuous use.
