

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8008 Radiation Dosimeter

Manufacturer: Reed Instruments

Model: MEA-REE-00904

Availability: In Stock

Description

The R8008 is a handheld personal radiation dosimeter that detects alpha, beta, gamma, and X-ray radiation across a dose rate range of 0.0001 to 1000 uSv/h. It features a backlit LCD with bargraph display, user-adjustable audible/visual alarm thresholds, onboard memory for up to 4,000 logged readings, and Bluetooth connectivity for streaming data to a PC. Powered by 4 AA batteries, it ships with a hard carrying case and is suited for radiological surveying, X-ray scatter checks, and general environmental radiation monitoring.
