Reed SD-9901 Air Quality Meter, Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed SD-9901 Air Quality Meter, Data Logger

Manufacturer: Reed Instruments

Model: MEA-REE-00918

Availability: In Stock

Description

The REED SD-9901 is a multi-probe indoor air quality data logger that simultaneously records oxygen, carbon dioxide, carbon monoxide, temperature, and humidity readings on a large backlit LCD. It stores data directly to an SD card (up to 16GB) at user-selected sampling intervals, and can be tripod-mounted for extended unattended monitoring. Well suited for building inspectors and safety professionals needing a documented record of air quality over time.
