Reed R8060 Sound Level Meter, Bargraph

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8060 Sound Level Meter, Bargraph

Manufacturer: Reed Instruments

Model: MEA-REE-00924

Availability: In Stock

Description

The REED R8060 is a triple-range Type 2 sound level meter featuring a digital analog bargraph alongside its numeric LCD readout for at-a-glance trend monitoring, plus A/C frequency weighting, fast/slow response, and an AC/DC output for connecting to external dataloggers or chart recorders. Its tripod mount supports long-term unattended noise monitoring. A good set-up choice when visual trend tracking matters as much as the numeric reading.
