Reed R5044 3-Phase & Motor Rotation Tester, Non-Contact

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5044 3-Phase & Motor Rotation Tester, Non-Contact

Manufacturer: Reed Instruments

Model: MEA-REE-00968

Availability: In Stock

Description

The REED R5044 checks 3-phase rotation and motor wiring without needing bare-metal contact, using non-metallic alligator clips and color-coded leads that follow standard wire-color conventions. Onboard LEDs and a beeper indicate rotation direction and reversed phases, and magnets on the housing let you mount it hands-free while testing in bright or dim conditions.
