Reed R5210 Receptacle Tester, Gfci

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5210 Receptacle Tester, Gfci

Manufacturer: Reed Instruments

Model: MEA-REE-00974

Availability: In Stock

Description

The REED R5210 plugs straight into any standard 3-wire outlet to instantly reveal common wiring faults such as open ground, open neutral, reversed hot/neutral, and reversed hot/ground, reading the result off a simple LED indicator chart. A built-in push-button GFCI test lets you confirm that GFCI-protected outlets are tripping correctly, all without tools or wiring diagrams. Compact and rugged, it's built for quick go/no-go checks by electricians and home inspectors alike.
