Reed R5500 Circuit Breaker Finder/Receptacle Tester/ Gfci Tester, 3- In-1

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5500 Circuit Breaker Finder/Receptacle Tester/ Gfci Tester, 3-In-1

Manufacturer: Reed Instruments

Model: MEA-REE-00977

Availability: In Stock

Description

The REED R5500 is a 3-in-1 electrical tool that combines a circuit breaker finder, a receptacle wiring tester, and a GFCI tester in one kit. Plug the compact transmitter into any outlet, then sweep the included receiver/finder across your breaker panel to instantly locate the matching circuit via its adjustable-sensitivity indicator, while the transmitter itself reads out common wiring faults and lets you trigger a GFCI trip test. A practical time-saver for electricians working on live panels without needing to shut off power first.
