Reed R5700 Ground Resistance Tester, Clamp-On

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5700 Ground Resistance Tester, Clamp-On

Manufacturer: Reed Instruments

Model: MEA-REE-01003

Availability: In Stock

Description

The REED R5700 is a clamp-on ground resistance tester that measures earth resistance and leakage current without needing auxiliary ground spikes, making it well suited for testing grounding systems already in service. It offers auto-ranging across multiple resistance bands, stores up to 99 readings internally, and supports user-configurable alarm thresholds, all within a CAT III 300V-rated clamp housing.
