Reed BX-500 Calibrator, Infrared Thermometer 122/932F, 50/500C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed BX-500 Calibrator, Infrared Thermometer 122/932F, 50/500C

Manufacturer: Reed Instruments

Model: MEA-REE-01030

Availability: In Stock

Description

A blackbody-style calibration source for verifying non-contact infrared thermometers and thermal imaging cameras, covering 122 to 932F (50 to 500C). Its wide aperture and dual digital display let you set a target temperature, wait for thermal equilibrium, then point-and-shoot your IR thermometer to confirm accuracy against a known reference.
