Reed FS-1001 Test Stand For Force Gauges

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed FS-1001 Test Stand For Force Gauges

Manufacturer: Reed Instruments

Model: MEA-REE-01040

Availability: In Stock

Description

A dedicated benchtop test stand built to hold REED's SD-6020 and SD-6100 force gauges steady during tension and compression testing. Manual lever operation gives smooth, repeatable travel for consistent readings, supporting loads up to roughly 50kg with a travel distance of about 400mm. Ideal for labs and QC stations that need controlled, hands-free force measurement.
