Reed R1900 Anemometer/Thermometer, Rotating Vane, Compact

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R1900 Anemometer/Thermometer, Rotating Vane, Compact

Manufacturer: Reed Instruments

Model: MEA-REE-01073

Availability: In Stock

Description

The REED R1900 is a compact, one-handed rotating-vane anemometer that measures air velocity and temperature on a backlit dual LCD display. It covers a 0-30 m/s velocity range with Beaufort scale reference, Max/Average/Data-Hold functions, and auto shut-off, all in a lightweight 118g body powered by 3 AAA batteries. A convenient pocket-sized tool for quick HVAC and ventilation spot checks.
