Reed R3030 Manometer, 30psi

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3030 Manometer, 30psi

Manufacturer: Reed Instruments

Model: MEA-REE-01082

Availability: In Stock

Description

The REED R3030 is a digital gauge/differential pressure manometer rated up to 30 psi (60 psi max), offering the same 11 selectable measurement units and roughly 0.3% full-scale accuracy as other models in the R30 series. Its backlit LCD shows pressure alongside a real-time clock, with data-hold, low-battery warning, and auto shut-off for reliable field use. It's suited to HVAC, pneumatic system checks, and general industrial pressure testing where a mid-range psi ceiling is needed.
