Reed R9600 Refractometer, Salinity, 0-28%

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9600 Refractometer, Salinity, 0-28%

Manufacturer: Reed Instruments

Model: MEA-REE-01088

Availability: In Stock

Description

This handheld refractometer reads dissolved salt concentration in water from a few drops of sample, covering a 0-28% salinity range with 0.2% accuracy. It is commonly used to check saltwater aquariums, breeding ponds, and holding tanks, as well as brine solutions in food and manufacturing settings. Automatic temperature compensation and a simple focus adjustment give quick, repeatable readings without any batteries.
