Reed R9700 Battery/Antifreeze Tester, -50/32F, -45/0C

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9700 Battery/Antifreeze Tester, -50/32F, -45/0C

Manufacturer: Reed Instruments

Model: MEA-REE-01090

Availability: In Stock

Description

This dual-purpose handheld tester checks both battery acid specific gravity (1.15-1.30) and antifreeze/coolant freezing point for ethylene and propylene glycol mixtures, ideal for automotive service and fleet maintenance. It reads down to -50C (roughly -58F) and includes automatic temperature compensation for accurate results across a 10-30C ambient range. A calibration screwdriver, cleaning cloth, sample applicator, and hard case are included.
