Reed R5004-KIT Phase Rotation/Clamp Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5004-KIT Phase Rotation/Clamp Kit

Manufacturer: Reed Instruments

Model: MEA-REE-01148

Availability: In Stock

Description

The REED R5004-KIT bundles a 3-phase/motor rotation tester with a True RMS AC/DC clamp meter, a non-contact voltage detector, and thermocouple accessories, all organized in a soft carrying case. It's built for electricians who need to verify correct motor phase sequencing and then follow up with current, voltage, and temperature measurements on the same job.
