Reed R6018-KIT Water Damage/Restoration Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6018-KIT Water Damage/Restoration Kit

Manufacturer: Reed Instruments

Model: MEA-REE-01151

Availability: In Stock

Description

The REED R6018-KIT pairs a dual pin/pinless moisture meter with a digital psychrometer in a hard-shell carrying case, giving restoration crews everything needed to assess water intrusion. The moisture meter reads wood and building materials like drywall, plaster, and concrete with simple low/medium/high indicators, while the psychrometer tracks air temperature, humidity, and dew point.
