

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF TRU-35 External Radio

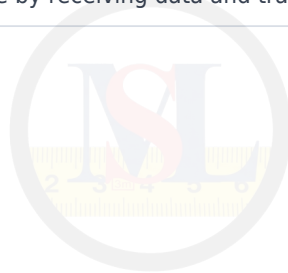

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-01594

Availability: In Stock

Description

TRU35 is a high-power, small-size, half-duplex digital radio model which is designed using advanced 32-bit cortex M4 microcontroller technology, wireless transceiver RF technology, and digital communication technology. It uses high quality RF components, excellent EMC and EMI processing. Frequency Range: 410~470MHz Operating Mode: Half-duplex Channel Spacing: 12.5KHz/ 25KHz Channels: 16 Modulation: GMSK/ 4FSK Operating Voltage: Rated voltage 12.5V (10.8~15V) All in one: TRU35 Integrated with transmitting and receiving functions. Wireless Data Transceiver Radio Relay: Increase the transmitting distance by receiving data and transmitting out using different frequency. Power Protection: ...
