Reed R8706-Kit Psychrometer With Humidity Calibration Standards

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8706-Kit Psychrometer With Humidity Calibration Standards

Manufacturer: Reed Instruments

Model: MEA-REE-01667

Availability: In Stock

Description

This kit pairs the REED 8706 digital psychrometer/thermo-hygrometer with a set of 33% and 75% humidity calibration standards, so users can verify and maintain the meter's accuracy in the field. The 8706 itself simultaneously reads relative humidity, air temperature, dew point, and wet bulb temperature, with an optional probe available for contact/differential temperature checks.
