Reed R2160-Kit2 Thermal Imager, & Heat Stress Monitor, Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2160-Kit2 Thermal Imager, & Heat Stress Monitor, Kit

Manufacturer: Reed Instruments

Model: MEA-REE-01674

Availability: In Stock

Description

This combo kit bundles the REED R2160 thermal imaging camera (160x120 IR sensor, -10 to 400C range) with the R6250SD data-logging heat stress meter, which tracks temperature, humidity, and radiant sunlight to calculate Wet Bulb Globe Temperature (WBGT). Together they give safety and facilities teams both visual thermal diagnostics and quantified heat-stress risk monitoring in one package.
