Reed R2450sd-Kit Data Logging Thermometer With Power Adapter And Sd Card

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2450sd-Kit Data Logging Thermometer With Power Adapter And Sd Card

Manufacturer: Reed Instruments

Model: MEA-REE-01675

Availability: In Stock

Description

The REED R2450SD-Kit is a 4-channel data logging thermometer that records readings straight to a 16GB SD card, included here along with an AC power adapter for continuous mains-powered logging. It supports Type K, J, R, S, E, and T thermocouples plus RTD probes across a wide -58 to 1700F range, and exports logged data directly as an Excel file with no extra software needed.
