Reed R2450sd-Kit3 Data Logging Thermometer With Sd Card, Power Adapter And 4 Thermocouple Probes

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2450sd-Kit3 Data Logging Thermometer With Sd Card, Power Adapter And 4 Thermocouple Probes

Manufacturer: Reed Instruments

Model: MEA-REE-01677

Availability: In Stock

Description

The R2450SD-Kit3 pairs the 4-channel data logging thermometer with four Type K beaded-wire probes, an SD card, and an AC power adapter, letting users monitor four temperature points at once right out of the box. It's suited to pharmaceutical, medical, environmental, industrial, and food-service temperature monitoring where multiple simultaneous readings are needed.
