Reed R2450sd-Kit4 Data Logging Thermometer With 4 Type-K Thermocouple Probes And Carrying Case

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2450sd-Kit4 Data Logging Thermometer With 4 Type-K Thermocouple Probes And Carrying Case

Manufacturer: Reed Instruments

Model: MEA-REE-01678

Availability: In Stock

Description

The R2450SD-Kit4 combines the data logging thermometer with four different Type K probe styles (surface, air/gas, immersion, and needle-tip) to handle a wide range of measurement scenarios, all organized in a molded hard carrying case with a dedicated accessory pouch. It's built for technicians who need one rugged, grab-and-go case covering multiple probe types in the field.
