Reed R2450sd-Kit6 Data Logging Thermometer With 2 Oven/Freezer Probes

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R2450sd-Kit6 Data Logging Thermometer With 2 Oven/Freezer Probes

Manufacturer: Reed Instruments

Model: MEA-REE-01680

Availability: In Stock

Description

The R2450SD-Kit6 pairs the data logging thermometer with two Type K air probes purpose-built for ovens, refrigerators, and freezers, each shielded with a stainless-steel guard so the sensor doesn't touch surfaces and skew the reading. It's aimed squarely at food-service and cold-chain temperature verification where accurate ambient air readings matter.
