Reed R3525-Kit2 Ph Mv Meter Kit With Buffer Solutions And Adapter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3525-Kit2 Ph Mv Meter Kit With Buffer Solutions And Adapter

Manufacturer: Reed Instruments

Model: MEA-REE-01687

Availability: In Stock

Description

The REED R3525-Kit2 builds on the standard kit by adding an AC power adapter, so the meter can run continuously without draining its battery during long bench or wall-mounted sessions. It still ships with pH 4.01 and 7.00 buffer solutions for accurate electrode calibration and includes the same cabled-electrode pH/mV/temperature meter. Well suited to fixed installations like water treatment, aquarium monitoring, and beverage manufacturing.
