Reed R4000sd-Kit Data Logging Vane Thermo-Anemometer With Power Adapter And Sd Card

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4000sd-Kit Data Logging Vane Thermo-Anemometer With Power Adapter And Sd Card

Manufacturer: Reed Instruments

Model: MEA-REE-01689

Availability: In Stock

Description

This REED R4000SD-Kit combines a data-logging vane thermo-anemometer with a 16GB SD card and AC power adapter, letting technicians capture and store air velocity and temperature readings over time. Data can be logged automatically at intervals from 1 to 3600 seconds and exported straight to Excel without extra software. Built for HVAC/R servicing, filter-blockage detection, and condenser or chiller monitoring.
